- Minor Enhancements

# Body Map Redesign

- New creams and admission

The screenshot displays a medical software interface for 'Assessment'. At the top, there's a patient header for 'June Armstrong' with status indicators for DNAR, Diabetic, and DOL. Below this is a navigation bar with 'Assessment' and various tool icons. A sidebar on the left shows 'Wounds', 'Creams', and 'Admissions' with a body map icon. The main area is divided into 'Condition Details - #1' and 'Wound Chart List (2)'. The 'Condition Details' section includes fields for 'Condition' (Bruise), 'Location' (Shoulder), 'Onset Date' (25/11/2019), and 'Review Date'. It also has measurement fields for Length, Width, and Depth, and a 'Pain' scale. A 'Comments' field contains the text 'Bruised shoulder raised from a fall in the living room.' and a 'Treatment Plan' field contains 'Monitor healing process applying Arnica when required.' The 'Wound Chart List' shows two entries: '1 - Bruise, Front, Shoulder' and '2 - Cut, Front, Foot'. At the bottom, there's a 'Treatment Notes (1)' table with columns for Date, Time, Logged By, Subject, and Details. The table contains one entry for '06/01/2020 15:51' by 'Daniella Thornley' regarding a 'Treatment Note - Wound' for a 'Bruise located on Front, Shoulder' with the detail 'Arnica applied, healing well'. The footer shows 'Resident's Name: Armstrong, June' and 'Filter: Current Residents'.

## Overview

- Additional Diagrams to include Head, Hands, Feet and Oral
- Improved recording of conditions
- Introduction of a cream chart
- New admissions snapshot
- Link Assessment to a condition

# Complaints and Suggestions

- Log, investigate and respond to any complaints / suggestions / concerns made.
